Y6	Tessellation	Theatre Reviews	Revision

BOOK FAIR

The Travelling Book Fair will be visiting school on Monday 22nd – Friday 26th June. You should receive a leaflet, today, giving some examples of books that they will be selling. On that week, your child will hopefully get a chance to visit the book fair in the afternoon and it will also be open straight after school if you wish to purchase any books.

ST PETER'S ART EXHIBITION

On the week commencing 22nd June, art work produced by children in our school and a number of other Gloucester primary schools will be exhibited in Blackfriars Priory. It will be a celebration of art work of all mediums, produced by children of different ages throughout this academic year. The exhibition will be open for school visits during the week and a group of budding artists from each year group in our school will be visiting on the Friday morning. Luckily, on Saturday 27th June, this exhibition will also be open to members of the public. This is a fantastic opportunity for children, families and friends to view our celebration of art work - we hope to see many of you there!

SUMMER SCHOOL 3rd – 7th AUGUST

Please could forms for the summer school, confirming whether or not your child/ren can attend, be returned by Monday 15th June at the latest.

CHARLIE AND THE CHOCOLATE FACTORY TRIP

On Wednesday we went to see Charlie and the Chocolate Factory. It was fantastic! You could see that the actors had put in a lot of time and effort into making the performance spectacular. We especially enjoyed the tricks like when he disappeared and then re-appeared. Dewi and Jacob 6AK

"It was astonishing! Everything was very professional and it blew our minds. Our favourite part was when they were in the glass elevator and the stars surrounded them." Emily and Mieko 6JG

YOUNG SCIENTIST DAY 2015

On Friday 5th June, children from Year 6 attended the Young Scientist Day held at Cheltenham College Preparatory School. The event was part of this year's Cheltenham Science Festival and was aimed at children with a particular aptitude or love for Science. It was an amazing day and children got to take part in fun, Space-themed Biology, Chemistry and Physics sessions led by the Prep school staff. Children made their own air powered rockets and raced them, watched fun explosions in the Chemistry lab and finally tested different foods to see which would be best to take into Space.

"I really enjoyed the Chemistry lesson because we got to make and burn Hydrogen gas. We watched explosions change colour when different chemicals were used." Thomas

"I loved designing a rocket and making one. We had to put air pressure in them to launch them. Finn's went the furthest!" Samantha

"I really enjoyed Biology. It was fun to test food to see if they had protein, starch, fats and glucose." Farelle

"It was an eye-opening experience and we learnt so much!" Mieko

FOODBANK UPDATE

A very special thank you to all who donated items for the Foodbank appeal, our local charity. For the month of June, EYFS, Yr 1 and 2 have donated 201 items! This highlights how our children at St Peter's live life to the full by helping those in need in our community. For the month of July the whole school will have the opportunity to donate items from Monday 6th until Friday 10th July. Many thanks for your support and continued generosity with this charity.
