

Facts4Life Activity Mat

Check In Activity

If a balloon modeller was at a party, what model would you ask them to make for you and why?

Draw the balloon model that you'd like – you may even want to model it for real if you have modelling balloons!

Brilliant Bodies

Watch this Facts4Life video on Allergies then answer the questions.

<https://www.youtube.com/watch?v=wSSWMjW6lgk>

How many people are affected by allergies?

What sorts of symptoms might a person have with an allergy?

An allergen is the substance that causes a reaction. What different allergens can you think of?

What can help people to manage their allergy symptoms?

Lots of different bugs in our bodies seems to be good for our health. What can we do to 'collect' a variety of healthy bugs?

Further Facts4Life research:

'Smoothing the path': The **micro human biome** is the name given to the collection of bugs in and on our bodies. Scientists are discovering how important this collection of bugs is in helping us to be healthy. See what you can find out about it.

Take Notice

We're going on a smelly hunt!

Search around your house or outdoor space for 10 different smells. Choose carefully (and safely of course) as some smells are best avoided!
